

## Profile

---

Front-End Developer with 5+ years of experience building scalable, high-performance web applications using **React.js, Next.js, Redux Toolkit, and Tailwind CSS**. Specialized in **performance optimization**, reusable component architecture, and seamless user experiences. Delivered multiple client projects that improved page load speed, usability, and development efficiency. Strong in Agile environments with contributions to both frontend and backend workflows.

## Skills

---

**Frameworks** - React.js (React.js 18), Next.js, Tailwind CSS and Redux Toolkit.

**Programming languages** - Javascript(ES6+), HTML5, CSS3, SCSS, Bootstrap.

**Database & others** - JIRA, AGILE, VS code, Airtable, Postman and Firebase

**Version Control** - Bitbucket, Github, Gitlab

**Cloud (Basics)** - AWS: S3 (static hosting), EC2 (basic compute), IAM, CloudWatch

## Certifications

---

**AWS Certified Cloud Practitioner** - Amazon Web Services (2026)

## Experience

---

**QBurst Technologies** - Senior Software Engineer ( Jan 2022 - Present )

- Built responsive, accessible UI screens using **React.js, Next.js**, Tailwind CSS, and Redux Toolkit for enterprise applications..
- Improved **Google Lighthouse performance score from 70 to 90+** through bundle optimization, code-splitting, lazy loading, and caching strategies.
- Collaborated with product teams to define requirements, estimate tasks, and deliver sprint goals ahead of schedule.
- Developed a **Storybook-powered reusable component library**, reducing UI development time by **30% across teams**.
- Documented architecture decisions, API integration flows, component standards, and frontend best practices.

**Apptium Technologies** - Software Developer I ( Feb 2020 - Dec 2021 )

- Contributed to backend workflows using JavaScript, REST APIs, and data models.
- Worked on Angular UI modules, fixing bugs and implementing enhancements.
- Simulated backend services using **SOAP UI** for early-stage UI testing.

## Key Projects

---

### Budgeting Tool (Client Project)

- Designed a forecasting dashboard with dynamic forms, filters, and editable tables
- Ensured smooth UX through efficient state management and responsive layout

**Technologies:** React, Redux, Airtable

### Realty CRM System

- Built lead tracking, property listing, and contact modules with optimized performance for large datasets
- Integrated map views and dynamic filtering

**Technologies:** Next.js, Tailwind CSS.

### Mentor & Mentee Performance Tracker (In-House Application)

- Built dashboards to track fresher performance, assign tasks, and collect mentor feedback
- Integrated notifications and role-based access

**Technologies:** React, Redux.

### Telecom CRM Platform – Freedom

- Developed backend logic and API integrations for a real-time CRM in telecom domain
- Simulated backend services using SOAP UI for early-stage testing

**Technologies:** Javascript, SOAP UI, Angular, and MySQL

## Education

---

### Bachelor of Engineering (B.E.) in Electronics and Communication Engineering

A V S College of Technology, Salem.

2015 - 2019

## Achievements & Responsibilities

---

- Received appreciation at QBurst for **rapid upskilling** & presenting complex workflows to clients.
